

REDD+ implementation by Brazil

Monique Ferreira

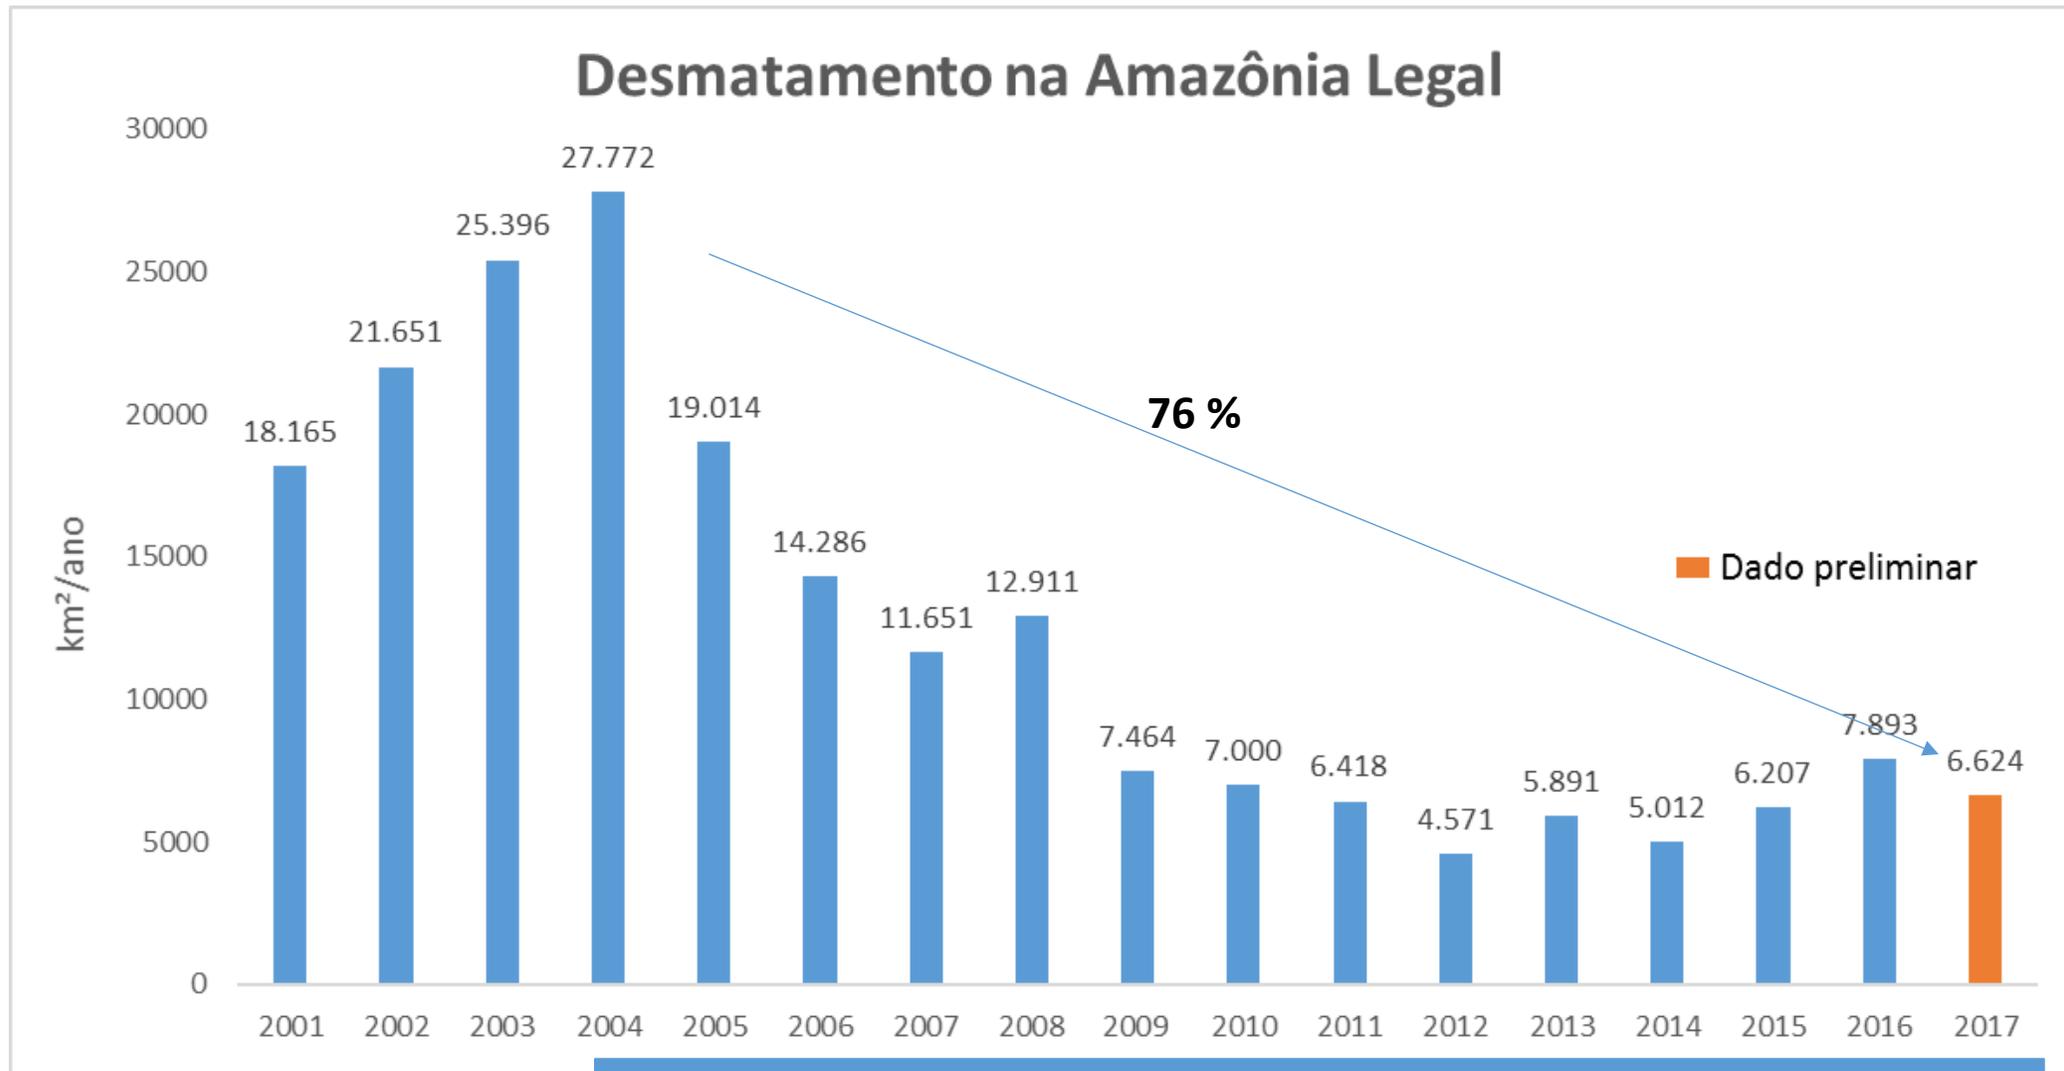

General-Coordinator for Forest Finance and Transparency

COP 23

10th November 2017

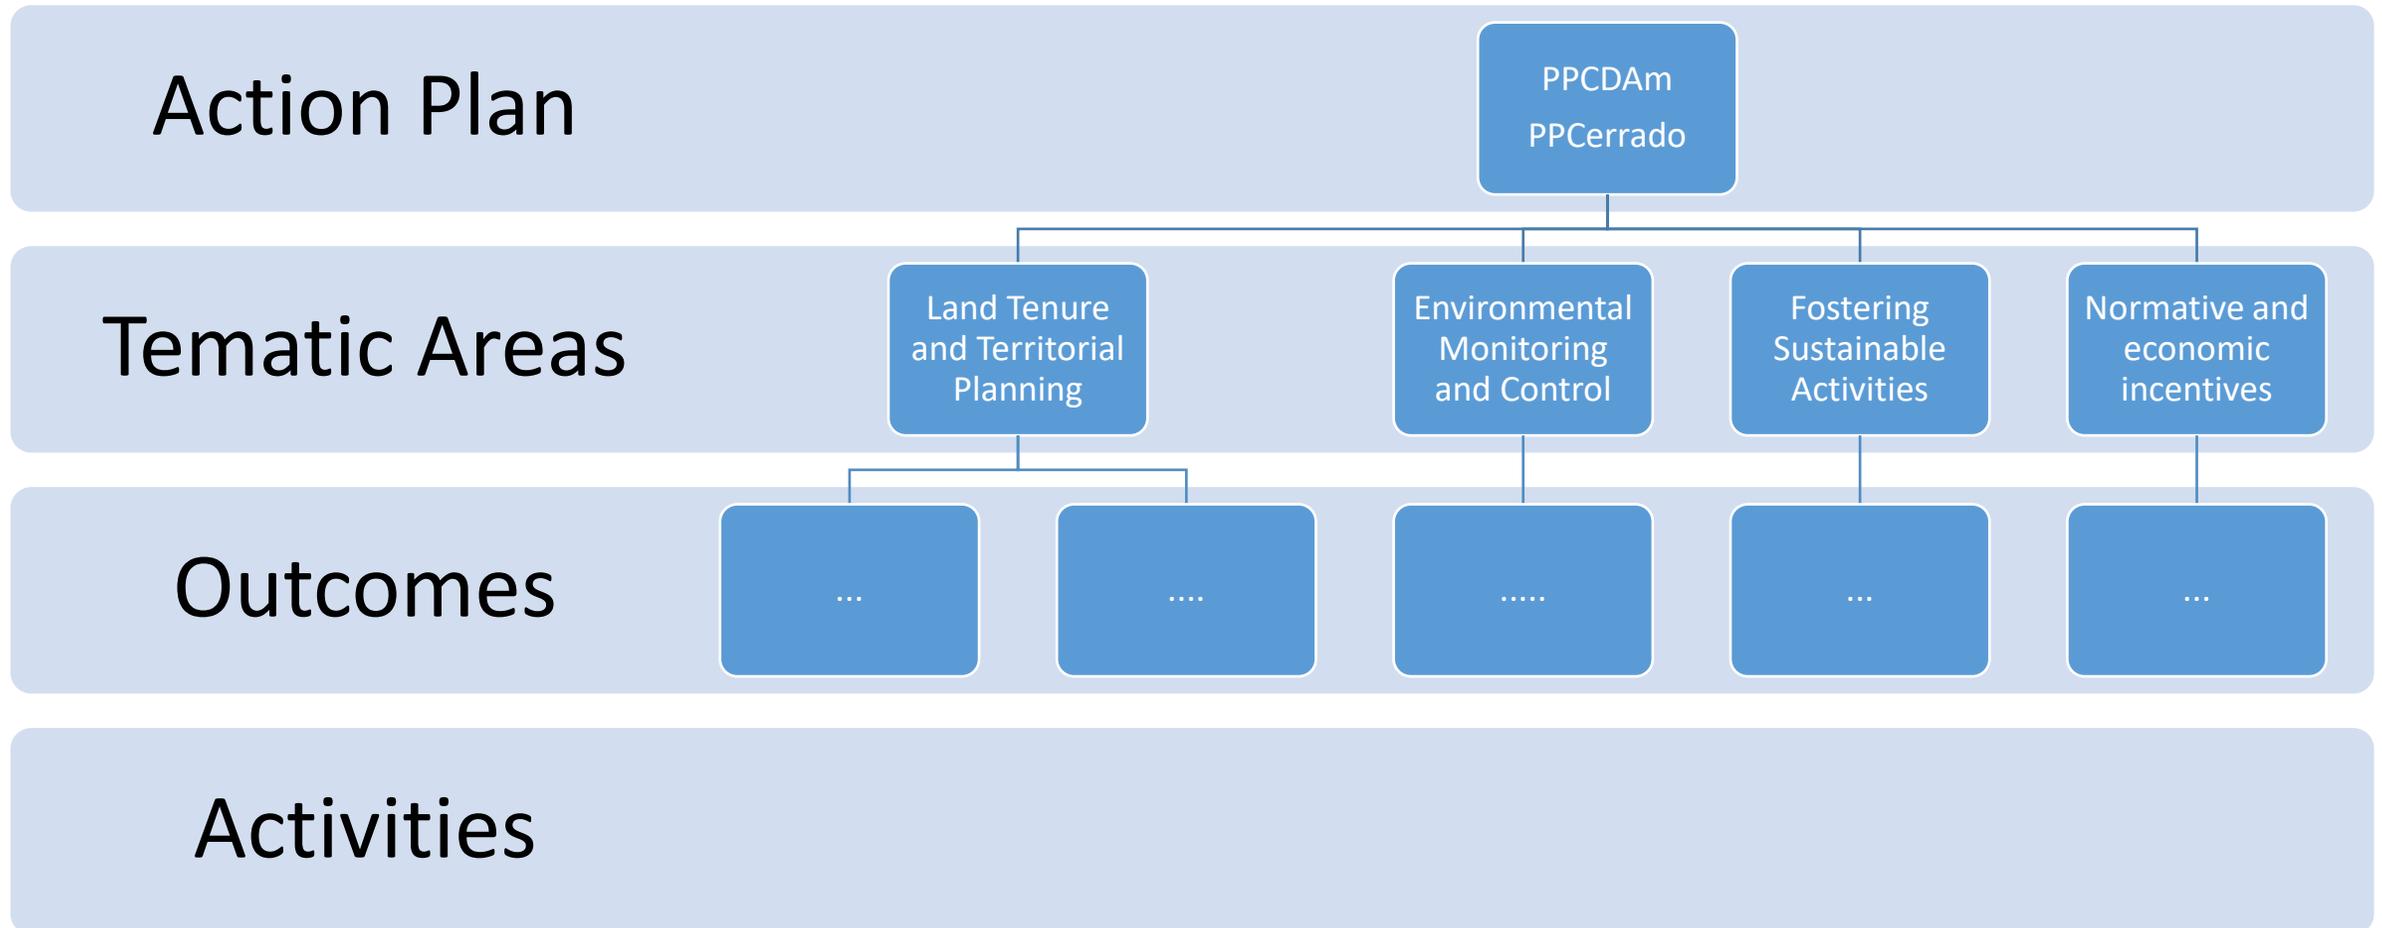

What is Brazil doing in order to receive results-based payments [through the recent GCF's Cairo decision]?

1: Reducing deforestation

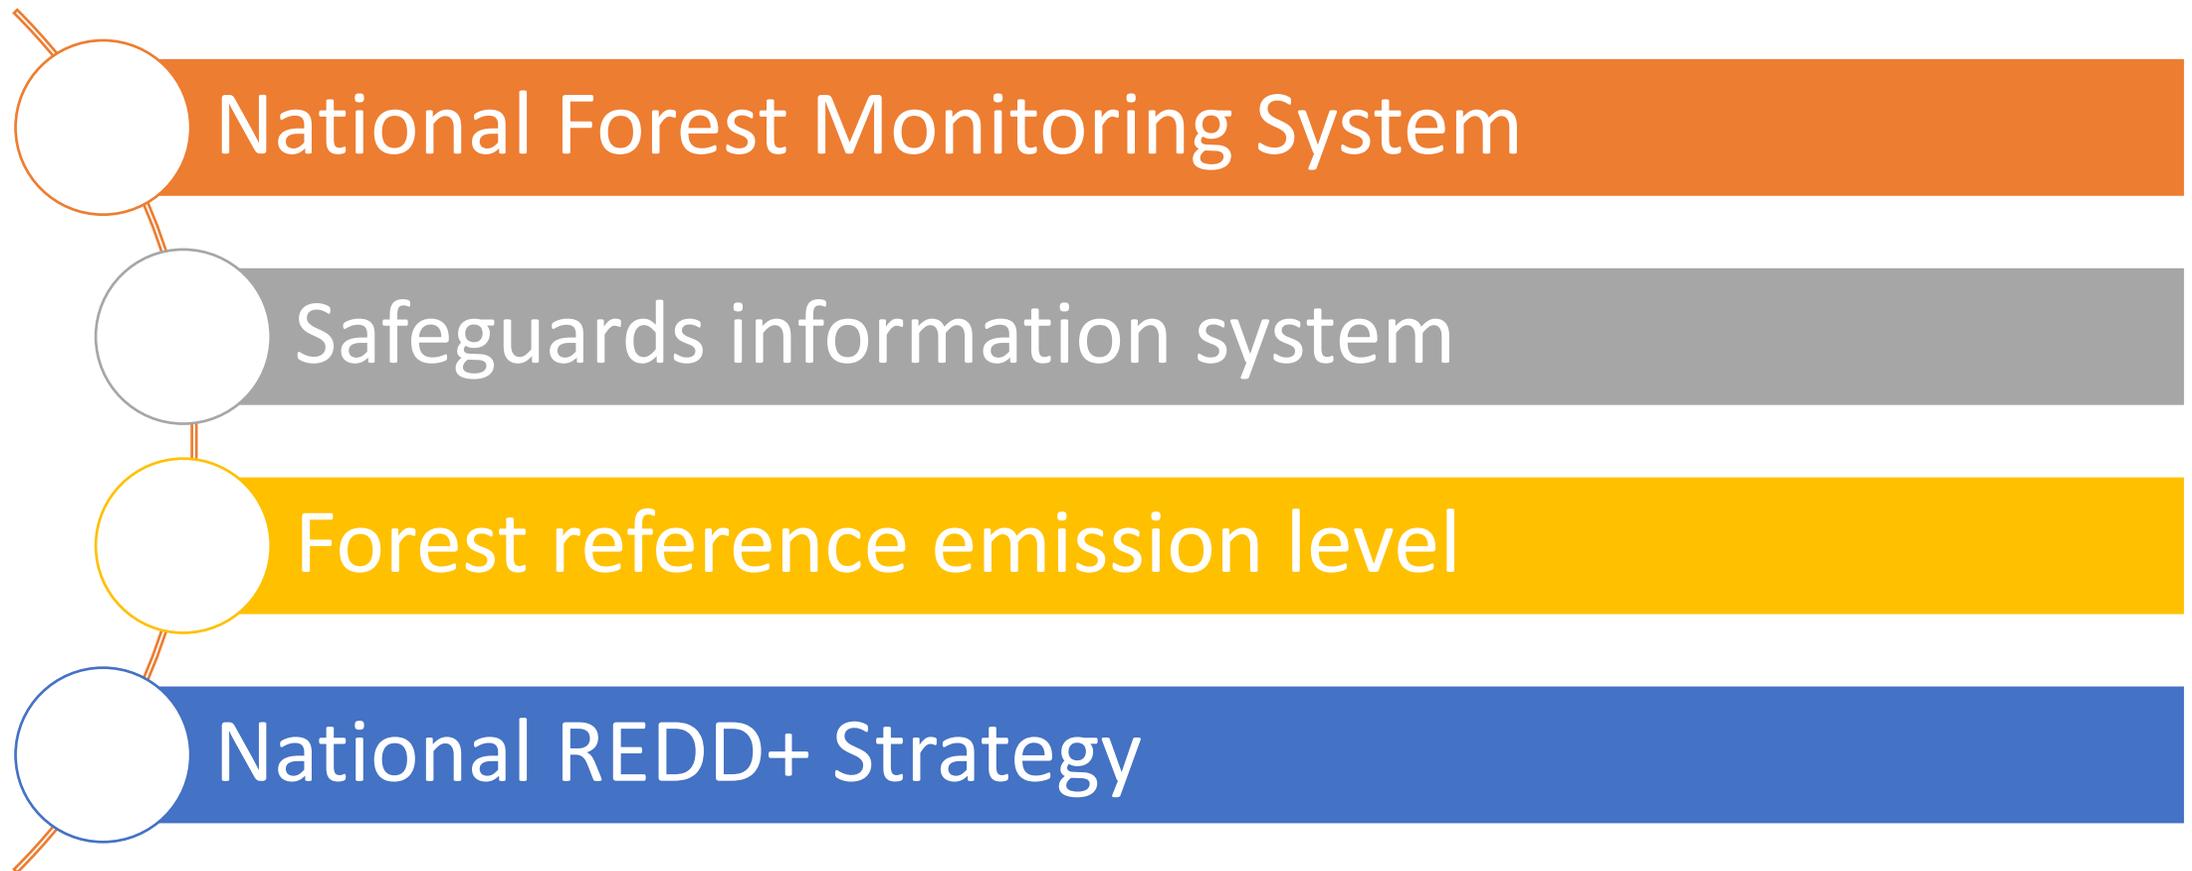

Action Plan for Prevent and Control Deforestation in Legal Amazon

1.2: How we organize our work

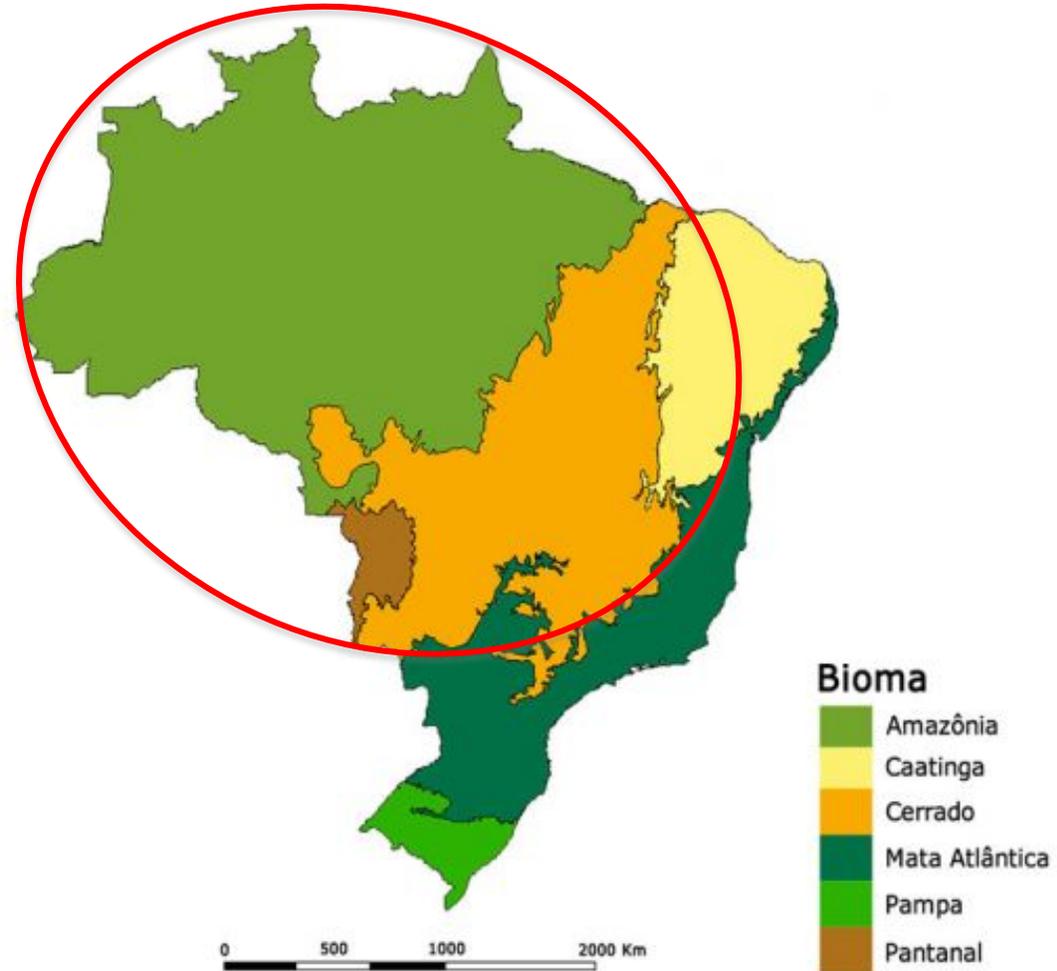

2: Implementing the Warsaw Framework for REDD+

Brazilian FRELs and REDD+ results

- FREL Amazon + FREL Cerrado = add up to 73% of the national territory
- **Results from reducing emissions from deforestation in the Amazon: 2006-2015 recognized, 2011-2015 to complete the MRV cycle by the end of 2017**
- Results in reducing emissions from deforestation in the Cerrado to be submitted by the end of 2018 (BUR3)

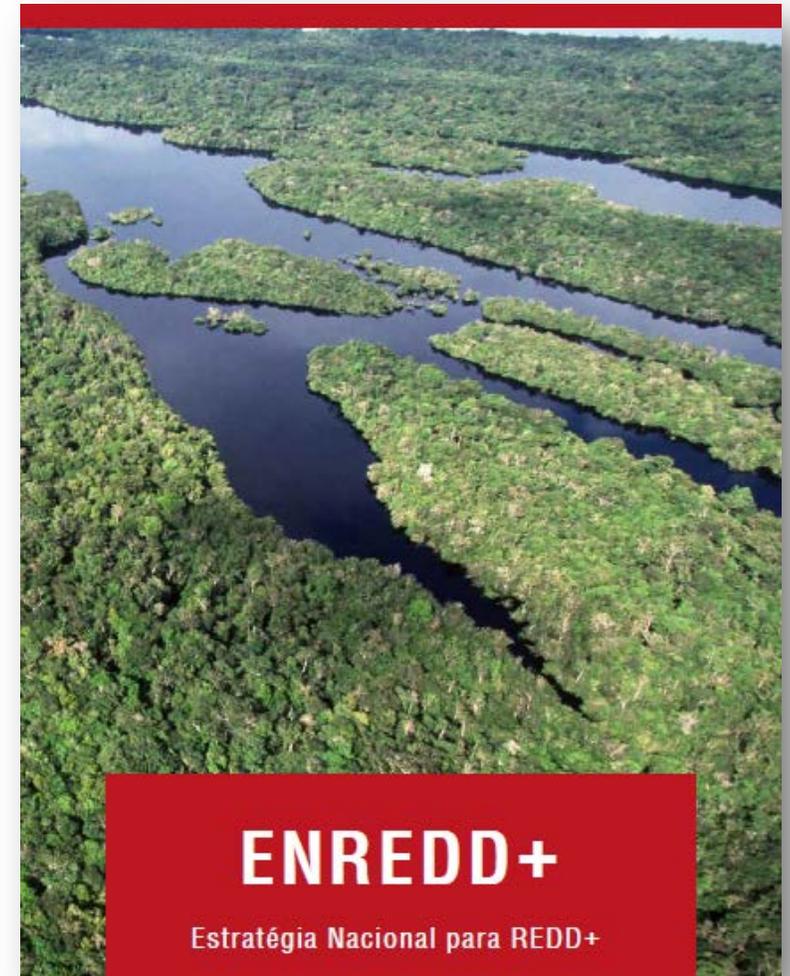

Fonte: IBGE (2004)

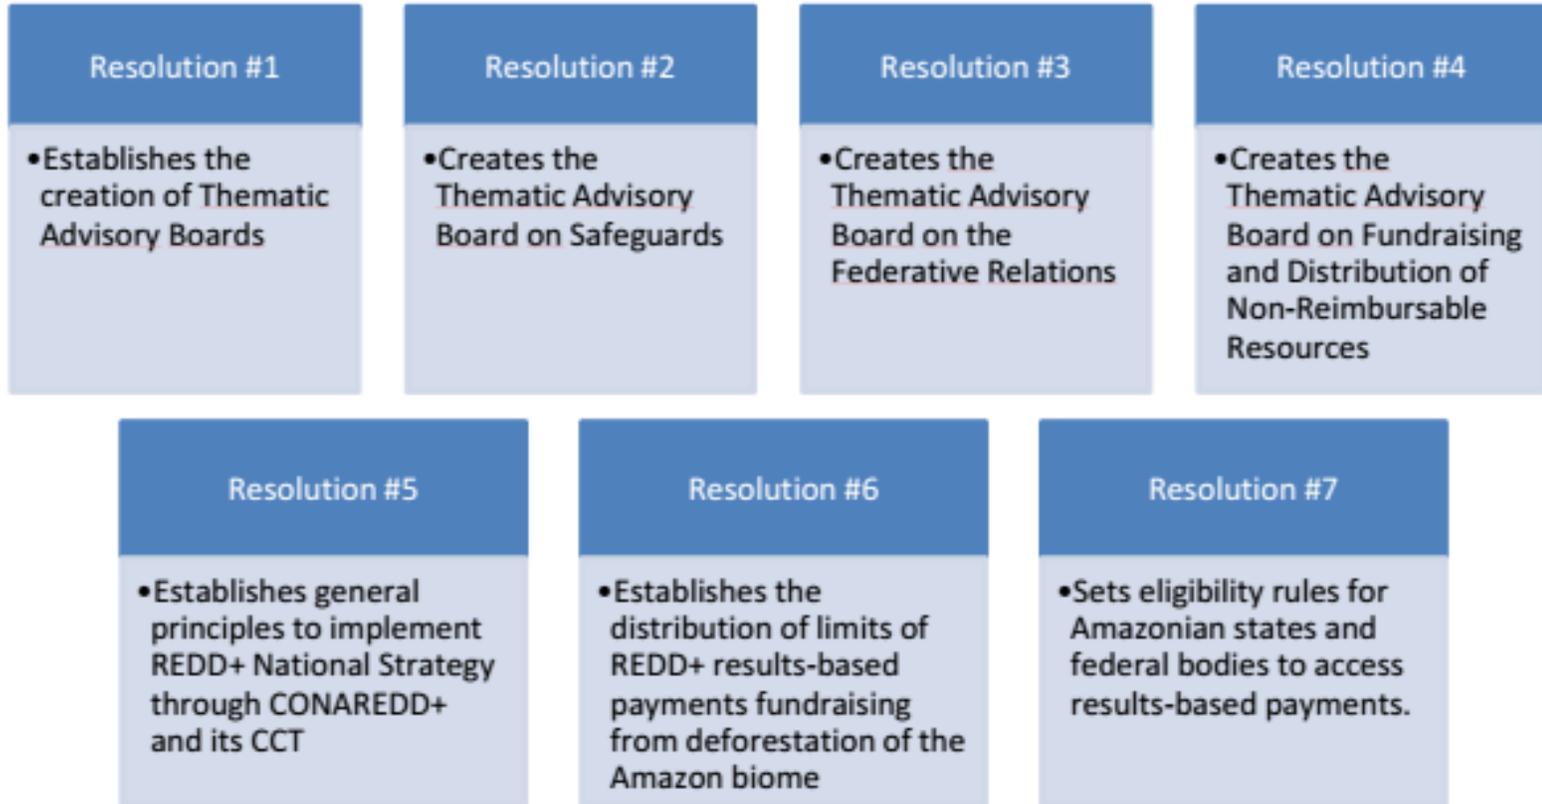

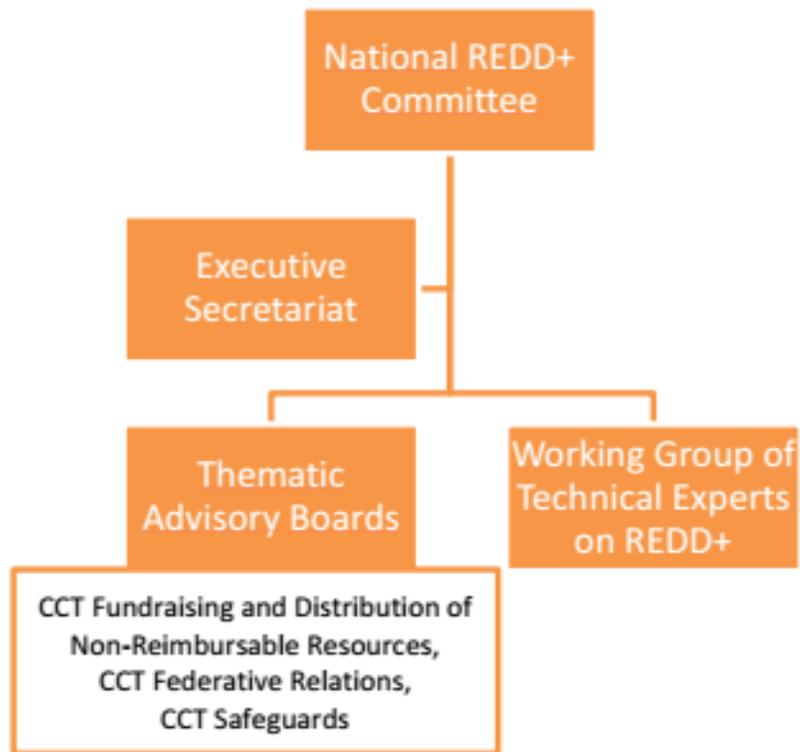

National REDD+ Strategy

- **Overall objective:**

to contribute to climate change mitigation by eliminating illegal deforestation, promoting conservation and restoration of forest ecosystems and fostering a low-carbon and sustainable forest economy, **delivering environmental, social and economic benefits.**

- National REDD+ Committee (5 meetings and 7 resolutions)

Objetives e activities of the Thematic Advisory Boards

Safeguards

- Defining the safeguards in the Brazilian context
- Supporting the development of the summary of information
- Supporting the development of the Information System
- Supporting the development of an ombudsman servisse for safeguards violations

Federative Relations

- Promoting convergence and complementarity of climate change and forest policies at the federal state and local levels
- Engaging all states in the implementation of REDD+
- Identifying the REDD+ initiatives in place throughout the country
- Supporting REDD+ capacity development for state and local agents

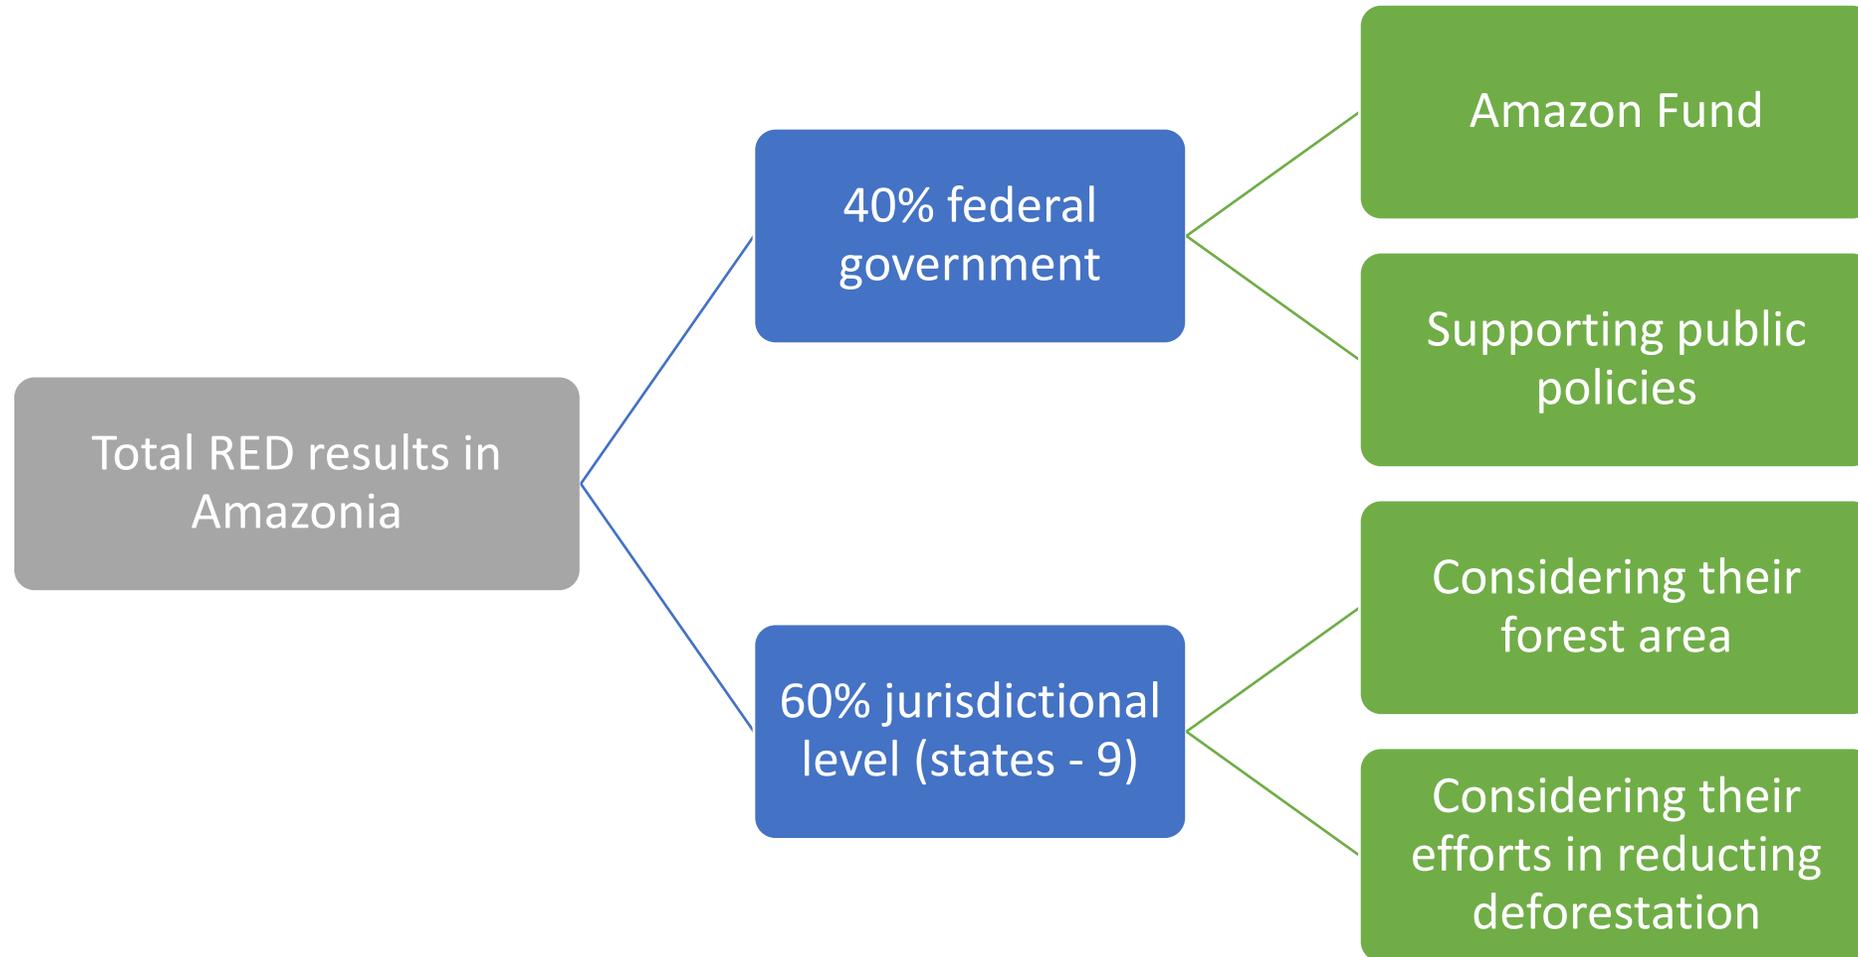

Fundraising and Distribution of Non Reimbursable Resources

- Defining guidelines, rules and criteria for the eligibility to access payments, fundraising and the use of REDD+ resources in Brazil
- Supporting the decentralization of fundraising for REDD+ results-based payments, starting with the Amazonian states

2.2. National REDD+ Strategy

- Resolution #5: Principles of implementation of REDD+ in Brazil
 - REDD+ as a finance instrument
 - Implementation at the national level and, in a interim bases, at the subnational level (biome)
 - RBP must seek for approval of the CONAREDD+
 - REDD+ RBP are made considering the FREL and under the fundraising limits stablished by CONAREDD+
 - Payments recieved are discounted of the entity's fundraising limit
 - No transference of mitigation results
 - Mitigation results used in the Brazilian account

Resolution #6: Fundraising limits

* Mínimo de 2% por estado

Pagamentos por resultados de REDD+ por meio do Fundo Verde para o Clima

O Fundo Verde para o Clima (GCF) realizou, entre os dias 20 e 25 de abril, uma oficina em Bali, Indonésia, para discutir a operacionalização de pagamentos por resultados de REDD+. A oficina reuniu especialistas e representantes de governos, da sociedade civil e de povos indígenas para debaterem os temas propostos, com base na experiência e nas lições aprendidas até o momento na implementação de REDD+. O Brasil participou das discussões, reforçando a importância do GCF seguir as orientações do Marco de Varsóvia para REDD+ sob a Convenção-Quadro das Nações Unidas sobre Mudança do Clima, evitando assim uma potencial duplicação de esforços.

Os insumos do evento orientarão a elaboração pelo Secretariado do GCF de chamada pública para propostas de pagamentos por resultados de REDD+. Essa proposta será submetida ao Conselho para tomada de decisão em sua 17ª reunião entre os dias 4 e 6 julho de 2017 em Songdo na Coreia do Sul.

\$ REDD+ results based payments

Next Steps

1. Developing the interface of the Safeguards Information System
2. Developing an impact matrix to assess public policies and measures
3. Constructing a **National FREL for deforestation**
4. Overhauling the **Info Hub Brasil**
5. **Mobilizing results-based payments via the GCF**
