

Proposed Topic for Side Event at COP25, Thai Pavilion, Spain

Side Event Title	CPF Sustainability
Responsible person/Org	Ms.Jeeranee Janrungautai / Charoen Pokphand Foods
Format of the side event	Presentation
Duration	30 min

Rationale

.....CPF Charoen Pokphand Foods Public Company Limited or CPF has developed an integrated agro-industrial and food business, including livestock and aquaculture i.e., swine, broiler, layer, duck, shrimp, and fish. The businesses are categorized into 3 categories, namely Feed, Farm, and Food Businesses. In addition, the Company operates Food Retail Outlets. Its production process utilizes modern technology, follows international standards, and is under close monitoring to ensure the delivery of high quality, safe products, and services that are friendly to the communities and environment. In this regards, it aims that its products are systematically traceable throughout the supply chain. Moreover, the Company develops a win-win partnership with its business partners for sustainable mutual growth. The Company drives the CSR to Sustainability Direction under the three pillars: “Food Security, Self-Sufficient Society and Balance of Nature”. The three pillars are based on the principle of good corporate governance and people development. Our objective is to ensure that the Company delivers appropriate benefits to shareholders, health and safety to consumers, as well as security and livelihood to our people, business partners and communities. At the same time, we also consider the environmental impacts of our operation and take appropriate steps to sustainably conserve natural resources that are the capital of the current and future socio-economic development.
